It's Hollywood, 1968, and three beautiful women are in big trouble. Sunny Jack Fennigan has the best intentions – to make female-led independent features that turn a quick buck at the box office. A powerful agent known only as "Captain" has a proposition that may be the answer to all his hopes. His three best prospects – girls who go by Matchbox, Pretty Sexy, and The Vil – are ripe for stardom. But a dark trip through seedy motels and murder scenes threatens to turn their dreams into the kind of nightmare you don't wake up from.
